Dear Phuc,

1. No worry, your contract will be extended. There is no problem!
2. There is no reason to make a study plan until we know what it will contain, and that depends on the next point:
3. I'm currently trying to reach Marcus, as you suggested, to see what can be done. Until I hear from him I do not think we have much to talk about - unless you already now want to suggest alternatives?

Best wishes,

Joachim

Dear Joachim,

According to my current situation, there are some issues that I would like to discuss with you.

1. My PhD contract, it will expired at the end of this month. Ulrika told me that the new contract will be signed soon, but so far I have not heard from her even though I emailed her several times.

Since I am participating the multicore days on Tuesday and Wednesday, I could not come to Ulrika's office.

Do you know if there are any financial problems so far?

**I will not be paid in the future without having a PhD contract**

2. Regarding to my study plan, I have not get any study plan for this year today.

3. Another issue is related to new technical advisor, I don't really know how long I will get the answer but let discuss about the alternative solution since I don't want to be blocked on waiting the answer.

May I have an appointment with you this week? Tomorrow or Friday, either is OK for me.

Thank you very much for your help.

Best regards,  
Phuc.

Hi Joachim,

Thank you very much for the information. I am looking forward to hearing some good news soon.

Best regards,  
Phuc.

Hi Phuc! Last week I talked to Thomas Schön and presented him with your documents. It turns out he himself already has too many students and also he is going to Australia, so being advised by him is not really an option. But he promised to check if someone else in his group can be your advisor. I have not yet heard from him but hope to hear something soon.

Best wishes,

Joachm

Hi Joachim,

Have you got any further information from Thomas, Michael, Dave or Tobias yet? May I know more information?

Last week, I chanced on Tobias at the fika room, he just ignored me when I said hi to him.

I am very worried that Tobias/Dave could interfere in the process of changing my research topic to some extent. Might it happen?

Thanks for your help.

Best regards,  
Phuc.
